HOW TO HAMMAM

The Moroccan hammam is an ancient treatment for body and soul relaxation. The first public baths were created by the Roman Empire more than 2000 years ago, allowing citizens to cleanse themselves. The concept gained momentum, starting in several Arab countries with hammam meaning 'hot water' in Arabic. Morocco was among one of the first countries to embrace this way of bathing and even made it a community ritual. Over time the hammam has become part of Moroccan culture and a popular place to relax and unwind.

Our hammam treatments incorporate natural and quality ingredients found locally within the region.
